CASE IH
AGRICULTURE

Maxxum 145 ActiveDrive 8

A high-tech tractor that convinces several times whether with engine power, comfortable gearbox as well as efficient fuel consumption, a lot of driving comfort and, not least, outstanding visually. In particular is the double clutch semi powershift transmission that has positively impressed in terms of maneuverability and performance. All gear and range shift, can be done manually or automatically in an extremely fluid way. The model-range is in the right size to fit different applications.

FENDT

313 Vario

Fendt 313 Vario is the tractor with the best agility and most modern technology on the market. Stepless transmission, low fuel consumption, modern cab with continuous windscreen, suspended front axle and many electronic options make it suitable for any work in the farm. Electronic control of lifter and remote valves, headland management system ready for automatic steering and Isobus, improve versatility and efficiency.

SAME®

Frutteto Cvt 115 S

Stepless transmission, high power hydraulic system, multifunctional drive lever and electronic control of most functions. All in a very small tractor. New MaxCom armrest is a significant step to guarantee an easy to use interface. A lot of option, including the independent suspension of the front axle, provides efficiency and high ride comfort.

CASE IH AGRICULTURE

Maxxum 145 ActiveDrive 8

Dynamic, modern and elegance. The design of the new Maxxum is a concentrate of style, ergonomics and practicality

TRACTOR OF THE YEAR
TOTY

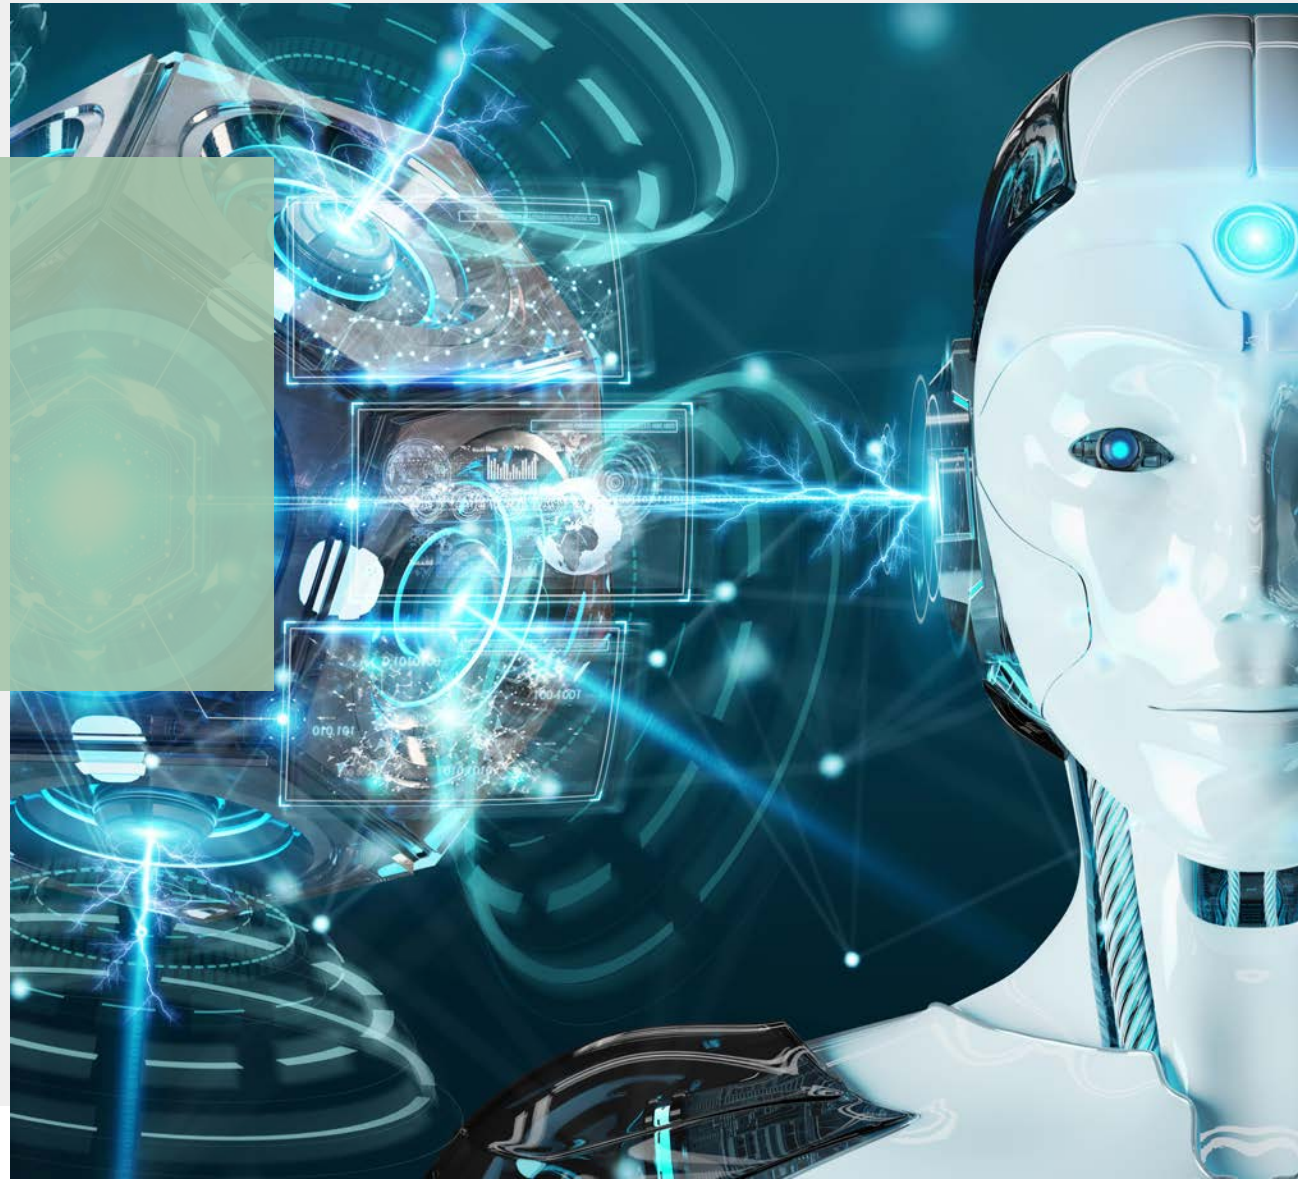
From next edition, Tractor of the Year 2020

SUSTAINABLE TotY

- By 2050 there will be 9.6 billion mouths to feed
- The world is getting larger and hungrier
- By 2050 food production must increase by 70%

SUSTAINABILITY on a TRACTOR:
What to focus on

- Safety
- Comfort
- Technology on board
- Efficency
- Non conventional fuels
- Virtual terminal
- Connectivity
- Brand commitment on environment themes-



- Sustainable TotY will not be an award to the most “green” tractor, but it will be an award to innovation under the sustainability point of view.

- Sustainability involves several aspects which will be the focus of the jury analysis

SUSTAINABLE TotY: Why?

- To renew our project
- Doesn't exist anything like this in the world
- Our industry is going in this direction
