

The challenge for tractor of the Year 2020 has begun.
On May 15-16 in Rome, the tractor manufacturers had the opportunity to present their candidates to the international jury of Tractor of the Year.
The jury is composed by 25 journalists from all over Europe.
During the 2 days event, through single submissions, the representatives of the manufacturers shared all the details, about their tractors.

From the nomination received, the jury **will select** the finalists tractors for each one of the TOTY's category
Official shortlists will be available within the end of June. In the meanwhile each juror has the tough job to evaluate each candidate.

During the month of September the jury will test the finalists tractors.
Awarding ceremony will take place at Agritechnica on November 10th
